As a member of the HopeWest Team and lead for The CLUB program at the Bacon Center for Living Your Best, I am honored to be a part of the vision and mission of a different future for aging well—one that supports a continuum of care for those aging in our community. Every day I am both inspired and humbled by the genuine, compassionate care and support given to HopeWest patients and their families—it is life-changing.

I am no exception to the truth that aging, illness and grief touch us all. I have had loved ones and family friends pass through the care of HopeWest. I was incredibly moved by the compassionate care and support that our families received.

HopeWest *IS* profoundly changing the experiences of aging, illness and grief within our community. The expansion of programs at the Bacon Center for Living Your Best will expand our continuum of care for seniors, enabling them to live in their own homes independently and safely while also providing a safe place to gather, socialize, strengthen mind-body-spirit, and stay well.

**Please consider joining me in support of
the HopeBlooms Campaign. All donations are important and
meaningful and will make a difference. Together we can
ensure "Hope Blooms" today and for generations to come.**
